Land Use Detectives

Phoenix Class Autumn Term 2 2026

During this project, we will explore the UK's human and physical features using digital maps, then investigate key features of its counties and cities across all four countries. We will study land use, before completing fieldwork around the school to find out how local land is used. Finally, we will consolidate our learning to build a clear understanding of the structure of the UK and its physical and human features.

Project focus: Geography	
History	Land Use Detectives
English	Setting descriptions, Writing to persuade Reading: The Nothing to See Here Hotel
Science	Eat Well, Move Well
Design and Technology	The Healthy Kitchen
RE	What is the Trinity?
PSHCE	Celebrating Difference
